Greetings from CFT,

I would like to invite all of our CFT families to Math and Science Night in the CFT cafeteria on January 23 at 6:30pm. This is a very exciting event for two reasons. First, we have collected over the year's many ideas and games to share with the students that are very fun. Kids do activities at this event that open their minds to explore math and science concepts, problems and solutions. Most importantly, they have fun doing it. Second, we will have the two curricula being considered for our math curriculum adoption in the hallway, along with forms for you to give us feedback on. As you know, we need to select a math curriculum and we need your help.

I hope many of you can join us for Math and Science Night.
