Greetings from CFT!

It was so good to get back after a very long and cold winter break. I sure did enjoy getting to see all of the kids walking the hallways. It just doesn't feel right when CFT is cold and empty.

Every year we adopt a new curriculum and this year is our year to make a decision about a mathematics curriculum. This adopted curriculum will be taught starting next year (2009-2010). We started with a committee consisting of district teachers to take a look at numerous curricula offered by several different vendors/publishers. Based on some goals and beliefs established by the committee we have narrowed it down to two curricula. One is Bridges to Mathematics from The Math Learning Center and the other is Math Expressions from Houghton Mifflin.

Now we need your help. If you are interested in this adoption and would like to contribute to the decision process, we invite you to attend our Elementary Math Adoption Community Meeting on Monday, January 26th, 2009, at 6:30p.m. in the Board Room at the District Office (6960 S.W. Sandburg St., Tigard, OR 97223).

We truly believe that parents can give us vital input regarding a decision that will affect all of our students from kindergarten to 5th grade.

Thanks for considering this invitation and have a great January!
