

**DESIGNATED PARKING**  
for  
**Scrip Volunteers**  
**Picking Up Orders on Thursdays**

**There are 3 official SCRIP parking spaces reserved for Thursday Pick Up Day! They are the first 3 spaces to the left as you drive into our parking lot (under the trees) and designated by BLUE and WHITE signs.**

As you drive down Sandburg Street you will be able to see if a space is available before pulling into the parking lot. If there is scrip parking available you can pull in, and if not, you will know to proceed down to the lower Western Family Foods lot further down Sandburg Street where additional parking is available.

American Lazertech (right next door) is also generous in letting people use their lot.

To keep the parking spaces readily available for everyone, we ask that you only verify your order while in the scrip office, and not take the time to divide it out for your customers. Usually people are here between 5-7 minutes when they pick up their orders, very timely for freeing up parking spaces for others yet to come.

The scrip center gals park off site on that day to give our parking to you, and whereas it is only 3 spaces, it does help to have it designated especially for SCRIP. You can also park in OTHER spaces that are empty and available. Parking here is up for grabs (except those assigned and marked accordingly for administrators).

Of course, there is also special handicap parking for those needing much closer parking with extra space.

Please DO NOT park in the NO PARKING red zone areas (fire safety zones) or in front of the loading bays in the parking lot.

- ALSO - Please watch out for squirrels!

Our little scrip mascot, "Scrippy", is a little local squirrel that sometimes scurries across the parking lot. She comes over nearly everyday to get peanuts and sunflower seeds that we put on her special rock and to drink from her little watering hole. She has been know to occassionally to greet people at the door!
