Simplifying the school improvement plan. Tualatin's is currently 20 pages long. Staff will be creating SMART goals for reading, math, writing, science, etc. Overall goal is to close the achievement gap.

Jonathon Crane of Tualatin Life is looking to build community relationship with the school. He is willing to run stories on activities at the school to build a relationship with the Tualatin community. This would in turn help with school fundraisers as the community would now know what is going on and where. Marianne Germond has offered to communicate with him.

Academics- Michelle Smargiassi by Kathy Stallkamp

During the summer the library received some newer "pre-owned" computers for classes and student use. This has been great as some of the older computers could not run some of the websites that our students use. The district is providing each high school student with his/her own TTSD email/ Google doc account. Students use their school server login names and their student ID number for username and password. The domain name is @ttsdstudents.org
